Scan Screen:

- A hand icon gently drags the ring ball left to right back and forth
- Then disappear and reappear every 3 seconds

Core Ideation: Box Idea

- The prized box is on top of the rings it needs to touch the bottom to end the playable

- The ring ball has six rings inside; some ring balls have three inner rings that are a different color from the two outer rings.

- The ball drops and absorbs the ring of the same color upon collision, while spitting out the other color.

- When a ring ball containing six rings of a single color collides with another ring ball of the same color, it absorbs those matching rings, stripping away the other color before vanishing from the board.

- The colors of the rings are
    - 🟥 Red
    - 🟦 Blue
    - 🟩 Green
    - 🟨 Yellow

Fail State:

When the circles overflow above the red line it triggers the fail state
